EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence Ashery on 11/4/05.

The application has been amended as follows:

In claim 1, last line, after "of the reverse-rotor,", --causing rotation of the reverse-rotor--, has been inserted.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest an opening and closing device in the entire claimed combination including a stator with a stator cam; a rotor with a rotor cam; a reverse-rotor and cam; a rotor spring, and a reverse-rotor spring within the rotor spring; and a releaser with cam all functioning in the claimed manner. (Note that the examiner is interpreting an "opening and closing device" as cited in the preamble to be directed to any type of foldable device, such as a hand held flip type electronic device.)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
